

Widmer 776 - Model 776 Time, Date & Number Stamp

Description

The Widmer Model 776 Time, Date & Number Stamp is versatile and unique. It offers two printing heads that will enable printing numerous combinations of Time, Date, and Numbering, as well as Alpha Wheels for coding. Time Imprint can be in Military or conventional date and time. Optional Custom die plates enable printing of any custom messages above and/or below Time, Date, and Numbering imprint.

Printing is done in one easy step! The print trigger is paper activated—no buttons to push or levers to pull.

Stamping force can be electronically adjusted to penetrate carbonized forms and pressure sensitive carbon-less forms. The open throat design enables the user to insert and print on any size documents.

Cast iron upper and lower casing ensures stability and long life.
